YOUR TOUR YOUR EXPERIENCE

THE PHILLIP ISLAND PRIVATE EXPERIENCES

Phillip Island is home to the largest colony of Fairy Penguins in the world and they come up the beach to greet you every night at the world-famous penguin parade. You will be amazed and thrilled to see so many penguins walk from the beach up to their nests right alongside the walking tracks and viewing points only a hands length away from where you will be standing.

Phillip Island is an easy drive of less than 2 hours from Melbourne and it's combination of the protected coast line of the Western Port bay on one side and the wild open sea of The Bass Strait on the other makes the scenery always dynamic and captivating.

The incredible natural beauty of the rugged coastlines, sandy beaches, wide and different varieties of flora & fauna make Phillip Island a uniquely Australian experience. Phillip Island is also home to some of Australia's most iconic native wildlife including: penguins, fur seals, and koalas.
