PHILLIP ISLAND PRIVATE EXPERIENCE

Phillip Island is home to the largest colony of Fairy Penguins in the world and they come up the beach to greet you every night at the world-famous Penguin Parade. You will be amazed and thrilled to see so many penguins walk from the beach up to their nests right alongside the walking tracks and viewing points only an arm's length away from where you will be standing. Phillip Island is an easy drive of less than 2 hours from Melbourne and its combination of the protected coastline of Western Port Bay on one side and the wild open sea of Bass Strait on the other makes the scenery always dynamic and captivating. The incredible natural beauty of the rugged coastlines, sandy beaches, and wide varieties of flora & fauna make Phillip Island a uniquely Australian experience. Phillip Island is also home to some of Australia's most iconic native wildlife including penguins, fur seals, and koalas.
